

FALL KILLS GOOD SAMARITAN

A Haliburton good Samaritan fell off a ladder and plunged to his death in the basement below as he helped a friend and neighbor in the construction of his house a week ago Tuesday evening.

Forty-four year-old John Alfred Maughan, father of five died in Peterborough Civic Hospital the following morning after undergoing emergency brain surgery. He never regained consciousness.

According to police Maughan had been helping out his long-time friend Les Schell with his new home and was working with him that evening when the accident occurred.

Mr. Maughan and Mark Schell were helping Mark's brother Les build the new house when Mr. Maughan slipped from the stepladder then, as he tried to regain his balance, pitched headlong some 8 feet to the basement below, landing on his head.

A Bell Canada employee, Ted Harrison of Haliburton, who had arrived moments earlier, went to a nearby phone to call an ambulance while Les and Mark rushed to Mr. Maughan's aid.

Both men applied first aid until the ambulance arrived moments later.

Mr. Maughan was taken to Haliburton Hospital, then rushed to Peterborough Civic Hospital for emergency surgery.

Mr. Maughan had worked for Curry Bishop Ltd. for some ten years. Born and raised in Essonville, he moved to Haliburton many years ago where he raised his family.

Mr. Maughan is survived by his wife of 22 years, Violet, and five children, Leonard, Sharon, Miles, Nancy and Susan.

Lawn
watering
banned

Anson, Hindon and Minden Council moved quickly last week to preserve Minden's water supply as they passed a by-law to regulate water use that empowers Minden's By-law Enforcement Officer, Dick Schell, to levy fines of up to \$100 against persons who contravene the by-law.

Worried by this Spring's

Seek probe
into Sunday
opening

The Liquor Licence Board of Ontario has been asked by Minden council to investigate the Sunday opening of a Minden hotel.

Council's resolution followed a barrage of complaints, including the threat of a petition after some scores of motorcyclists virtually took over a section of Minden's Main Street, beer bottles in hand, during the recent holiday weekend. According to police, the motorcyclists at times numbering 50 to 60, denied they were members of a gang and claimed to be taking part in an annual reunion.

While discounting their explanation, police for the most part issued warnings and kept a close watch on the noisy crowd.

Some liquor charges were laid, as well, however.

Recently the LLBO granted Minden's Rockcliffe Hotel permission to open from noon to 10 pm Sundays under a dining lounge format.

The first Sunday the hotel opened was over May 22 when the motorcyclists showed up, and, according to some local citizens, openly drank alcohol on Mindne's main street.

However, two other local residents, Evelyn Cox and John Pentney, both claimed they never actually saw anyone drinking on the street and seemed more concerned with the noise coming from the busy hotel's open doors.

Both expressed admiration for the initiative of the hotel's owner, Dave Willis, but felt that its doors should be kept closed in order to keep down the noise.

Acting on the complaints, Minden council a week ago unanimously passed a resolution requesting particulars of the licence and asked the Commissioner of the LLBO to initiate an investigation into that particular Sunday's business at the hotel.

This past Sunday downtown Minden was back to normal, totally free of the beer-swilling motorcyclists.

Pinned

Last Friday afternoon's Grandmothers' Tea at Hyland Crest Senior Citizen's Home was high-

lighted with a visit from a campaigning Victoria-Haliburton incumbent Liberal M.P.P. John

Eakins. Mr. Eakins brought along cut flowers for the ladies and is seen here pinning

a flower on Hyland Crest resident, Mrs. Emma Henderson.

'The Haliburton Highlands Chamber of Commerce'

A supply of the 'Travellers Encyclopedia of Ontario' along with other Ministry of Industry and Tourism literature has just reached our office. The Encyclopedia is a 96 page glossy full colour magazine, that expounds on the tourism attractions of all of Ontario, including Haliburton. The Ministry is justly proud of this publication. These books are not only for distribution to tourists travelling through our area but are also available to anyone locally who would find them of interest. There is a new accommodation guide and camping guide also available at this time. If you would like one drop in our office and pick one up.

Two travel counsellors have been hired through Central Ontario Travel Association to work in the Haliburton area this summer. Last year both travel counsellors worked in the Chamber office in Minden, but this year one is being sent to the Dysart caboose. Katherine Louise Hubbert will be stationed in Dysart, and Jackie Gough who worked with us last year, will again provide information from the Chamber office at Minden. George Stephenson and Pat Fearey, who worked in the caboose last year, will be working there once again along with Katherine Hubbert. This will enable the Haliburton booth to be open much longer hours than in the past. At Minden Jackie will be working along with regular Chamber staff Elaine Blakey and myself. C.O.T.A. is setting up training session for the counsellors on June 15th and 16th in Peterborough. Our office will be closed on both of those days in order for all staff to attend. From that date forward both Dysart and Minden will be working on extended summer hours through until Labour Day. Reeve Murray Fearey has promised a good clean up and landscaping will take place surrounding the caboose to make it more attractive, and of course, the Minden booth will be the benefactor of the Young Canada Works 'Spruce up for Tourism' program taking place this summer. Unfortunately we will be into the summer season before work can commence on the Minden office under this program.

We have a change in staff at Canada Manpower Office in Haliburton to announce this week. Miss Suzanne Burk will now assist Jayne Northgrave with the office duties at the centre. Suzanne has just returned from Vancouver where she was working for the past year. Suzanne replaces Cathy Carroll who has been with us in the office since the program was initiated. We are very sorry to lose Cathy and sincerely appreciate the expertise and hard work with which she set up the existing office routine. We wish Cathy all the best in future endeavours.

It has been suggested that if we are going to write about 'Tourism Horror Stories' we should also look at the flip side of the coin at some of the good things that are happening. Therefore, each week we shall try to feature either a horror story or a 'tip of the hat' story. This week's 'tip of the hat' goes to Algonquin Graphics. Algonquin, at considerable expense, recently brought in a Prof. Marcus to run a full day seminar on advertising. The seminar was offered absolutely free to all businessmen in the area, and all of those who took advantage of the offer were extremely impressed and felt the exercise was more than worthwhile. It is seldom these days that you can acquire anything that is worthwhile for free, but Prof. Marcus certainly made this day worthwhile and Algonquin Graphics made it free. Suggestions are coming forth almost daily for topics for our breakfast seminars. We sincerely hope you will support these first two seminars June 8th and 22nd so that we will be encouraged to carry them on in the fall and provide discussions on the many topics that have been suggested to us. As we said before, please call us at the office and let us know if you are coming.

Ev and Dave Dodd are expanding their horizons at Allsaw General Store. They now have a line of motorcycles and trail bikes and part of their operation will be known as the Haliburton Suzuki Centre.

At last count Haliburton Kinsmen had only five booths left for their home show. Last call is you want to be part of the show.

This summer, as last, the Chamber will be producing a poster to distribute to all the lodges and resorts to publicize all the attractions and events taking place throughout the summer. Please let us know if you are aware of something that could be included on this poster. Remember, a well informed Chamber is a helpful Chamber - and a friend in need is a pest.

Coming Events

June 8 - Chamber of Commerce Breakfast Seminar - Pine Stone Inn - Breakfast at 8:00 a.m. Seminar at 9:00 to 11:00 a.m. Topic - Staff Hiring, training, management, moral. Breakfast \$3.50 - Seminar - No Charge.

June 11 - Beef Bar-B-Que & Dance at Minden Community Centre - \$10.00 per couple for dinner and dance. \$6.00 per couple for dance only. Music by Misty River Ramblers. Proceeds for County Fair.

June 15 - W.I. 70th Anniversary Party at United Church Hall, Minden.

June 19 - Display of Art by public school students at Highland Crest Home - 1:30 to 4:00. Sponsored by W.I.

June 17, 18, 19 - Home Show in Haliburton.

Student charged in high school joy-ride

An 18 year-old Haliburton girl, who let a friend sit in her father's car to listen to the radio, had the vehicle stolen and subsequently smashed up by the culprit.

According to police, seventeen year-old Wayne O'Neill, of R. R. 1 Haliburton wanted to listen to a radio at noon-hour last Friday at the Haliburton Highlands Secondary School. So he asked Elizabeth R. Davidson of Haliburton if he could sit in her car and listen to the radio for a while. Elizabeth told him it was all-right with her providing he didn't move the car or let anyone else in the vehicle.

Apparently, O'Neill didn't heed her instructions, however, and took off in the car, accompanied by two juveniles. Police say O'Neill drove up and down Highway 519 for a while, then took off down a private road near the Haliburton Hospital where he smashed the car into a tree causing some \$500 damage. O'Neill reported the accident to police and a subsequent investigation by Provincial Constable Al Bibby resulted in O'Neill being charged with taking a vehicle without the owner's consent. O'Neill suffered a chipped bone in his right hand but no one else was injured.

Rams truck stopped for school bus, driver charged

One driver was charged following a two-vehicle accident last Friday on Highway 35, south of the Twelve Mile Lake bridge.

The accident, which occurred around 4 p.m., involved a 1974 pick-up truck driven by Timothy J. Davies, 24, of Peterborough and a 1975 car driven by 56 year-old Bruce Harper of Stouffville. Davies had stopped his truck behind a school bus when he was rammed in the rear by the Harper vehicle, according to police. Damage to the Davies truck was set at \$200 while the Harper car, which was towing a boat trailer, sustained some \$400 damage.

Harper has been charged with following too closely by the investigating officer, Provincial Constable Jim Solway.

ELECTION ROUND UP

The Tory 'big guns' began moving into Victoria-Haliburton last week as the P.C. party's Big Blue Machine upped the campaign tempo in an all-out bid to capture the riding for its candidate Jim Webster.

Although a newcomer to politics, the 29-year-old Webster has so far been able to rely on the election savvy of such seasoned star performers as Premier Bill Davis, Flora MacDonald, James Auld, Margaret Birch and Ontario 'sheriff' Roy McMurtry.

But while the Webster campaign may be outspending the other candidates in its star-studded bid for the one-time Tory stronghold, the Eakins campaign is the one that's drawing the big crowds.

Despite a low-key, limited budget campaign John Eakins, the Liberal in-

cumbent, who last election swept the riding, last Saturday evening drew some 500 enthusiasts at \$20 a couple to a special fund-raising dinner and dance in Lindsay.

Running on his record of outstanding service to all parts of the riding, Mr. Eakins is sticking to a door-knocking, main-streeting, one-to-one bid for re-election.

Least visible of all three campaigns is that of the New Democratic Party hopeful, Fred McLaughlin. Restricted not only by money but also by available time - McLaughlin teaches school during the day - he has nevertheless been conducting an aggressive spare-time campaign of door-knocking to present himself and his party's platform to the riding's voters.

Liberals

500 attend Eakins' night...biggest rally yet!

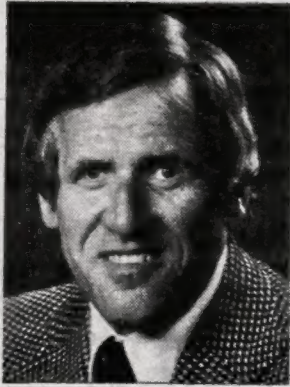

On Saturday, May 28, John Eakins' supporters from every nook and cranny of the riding turned out to a dinner and dance at the Lindsay Armoury to honour incumbent John Eakins. There were over 500 cheering, enthusiastic supporters. Mr. Eakins and his supporters were jubilant in the fact that the rally was the biggest of the campaign to date. The evening began with a lovely dinner and was followed with an address from Mr. Eakins.

In his remarks Eakins stated that he feels there is a job to be done in this Province, and a service to be rendered to this riding. 'I am prepared to accept that responsibility', he said. Eakins said that during his one and a half years at Queen's Park, he had served without fear or favour, all the people of Victoria and Haliburton Counties and he had received pleasure in doing so.

He said he had made no promises in the 1975 Election and he was not making any in this campaign. He said he would commit himself to keeping the people informed and would assure them of access to government and service from Queen's Park.

Referring to one candidate who feels he must be on the Government side, Eakins suggested that he himself, along with Leslie Frost and Bill Scott had not been too proud to serve in the opposition. He said, 'Some people seem to want to start at the top and work their way down'. 'While this is a needless and terribly costly election to the taxpayers of Ontario, I nevertheless have presented to our people the issues and I see them,' Eakins continued.

'Jobs - employment - and job creation is a priority. We must do everything possible to encourage clean non-polluting industry to these counties. We must give our young people an opportunity to live and work in the areas close to home and not

John Eakins

have to be forced to the cities miles away. In a short period of time I have had some success. Two manufacturing industries have approached me - one has located at Bobcaygeon, and another one will locate in our riding in a short period of time. This has been brought about by co-operation and working together. It is this co-operation that brought to realization the sewers and water projects in Minden and Haliburton. It is this co-operation that looks after the needs of the truckers of our counties and makes sure they get a fair shake and a fair deal, and it is this spirit that has ensured a bus service for the people of the Highland Grove - Harcourt areas to Lindsay.

Politics is simply service to people. Much has been done and much can be done. With your support, I pledge to give our citizens a strong voice at Queen's Park - and most important that your views will be expressed and listened to,' he concluded. Eakins was in Minden-Haliburton on Friday where he mainstreeted and canvassed door-to-door. Friday afternoon he visited Hyland Crest Senior Citizen's Home where he talked with many of our senior citizens during their annual Grandmother's Tea.

Eakins attended an all-candidates meeting at Haliburton Highlands Secondary School, Tuesday and is expected to be at Stanhope Fly-in on Sunday.

P.C.'s

Trot out big guns in bid for riding

The Tories' vaunted 'Big Blue Machine' has been put into action in our riding with Jim Webster pulling in the many Tory big guns to help reclaim Victoria-Haliburton riding for the Conservatives. Some of the Tory biggies include Premier Bill Davis, Flora MacDonald, M.P. for Kingston and the Islands, James Auld, Chairman of the Cabinet Management Committee, Roy McMurtry, Ontario Attorney-General and Margaret Birch, Secretary of Social Development.

Last Thursday evening, candidate Jim Webster's campaign wagon swung into Wilberforce where he addressed some 60 persons at the local Legion.

Biggest news in the P.C.'s platform was last week's announcement by Premier William Davis of a 'charter for Ontario' that commits the Conservative government to a far-reaching program of job creation, economic solidarity, housing starts, forest regeneration and labour harmony.

Davis referred to the charter as 'a program, a philosophy and a vision.' Highlights of the Charter include the creation of 100,000 new jobs each year for the next decade; a target of 900,000 new housing starts by 1987; a commitment to replace two trees for every one harvested in Ontario and regeneration of every acre harvested; restrictions on the size and cost of government, along with the objective of a balanced budget by 1981; reducing - and eventually eliminating - municipal taxes for the majority of Ontario's senior citizens and the outlawing of strikes and lockouts in such sectors of the economy as provincial government services, combined with more advanced labour-management negotiations to reduce work stoppages in other labour sectors.

Webster, of course, agreed wholeheartedly with the

Jim Webster

Premier's program and joined with the Premier in adding that this was a charter which 'springs from the essence of our party, the thrust of our Throne Speech, the resolutions of our last party meeting and the assessment of my colleagues and myself of the needs of the people we all serve.'

Last week Webster also visited Coboconk, Kirkfield, Carden, Sebright, Bolsover, Lindsay, Manvers, and Bobcaygeon. He participated in an all-candidates broadcast Tuesday night on CKLY radio, entertained a meeting with Roy McMurtry, Ontario's Attorney-General, campaigned in Bobcaygeon with the Chairman of the Management Board of Cabinet, James Auld, and attended an all-candidates meeting at the Haliburton Highlands Secondary Tuesday afternoon, followed by a campaign meeting with Parry Sound-Muskoka M.P. Stan Darling in the Haliburton Arena Auditorium last night (Tuesday).

Tonight (Wednesday), Webster will host luncheons at Lindsay and Bobcaygeon featuring Flora MacDonald, the Conservative M.P. for Kingston and the Islands. The rest of the week will be taken up by campaign thrusts through Woodville and Lindsay and a Sunday afternoon date at the Stanhope Fly-in, June 5th, at the Stanhope Airport.

N.D.P.

Tories...neglecting the present and jeopardizing the future

New Democratic Party hopeful Fred McLaughlin officially filed his nomination papers last Tuesday in Lindsay following a busy week of door-to-door canvassing. McLaughlin visited Bethany, Oakwood, Lindsay and Omemee last week interspersing these visits with an all-candidates broadcast on CKLY radio in Lindsay and an all-candidates debates at I.E. Weldon Secondary School in Lindsay and Haliburton Highlands Secondary School in Haliburton. He also hosted some 50 enthusiasts at the official opening of his committee rooms in Lindsay, last Wednesday. In a speech last week McLaughlin outlined his prime concerns and the issues of this election, namely: human and natural resources; the creation of jobs as a counterpoint to the terrible phenomenon of unemployment and the whole natural resource sector including forests, agricultural land, mining and energy, as well as lakes and rivers and 'what besets them at the moment.' Also central to McLaughlin's campaign is the Workman's Compensation Board and 'the indignities which it visits on persons all across the Province of Ontario.' On the topic of jobs, McLaughlin said 'the Tories are quite content to accept 200,000 persons permanently unemployed. To imperil the capacity to work and the self-respect of more than 200,000 persons is neglecting the present and

Fred McLaughlin

jeopardizing the future.' McLaughlin went on to point out that in the forest industry in this province 'we cut down several acres of trees for every acre we replant. Past policy and present policy neglects the forests, jeopardizes jobs in the future in the forest industry, and creates stupid forest management and inadequate regeneration policies. And if we don't preserve our agricultural land, if we don't secure our sources for food and secure the right of farmers to farm with a return on investment, then we don't secure our future because we have neglected our present.'

McLaughlin will be attending a meeting of the Lindsay District Labour Council tonight (Wednesday), will campaign in the Pleasant Point area Thursday, will visit Victoria Manor in Lindsay on Friday and will visit Minden, Haliburton, Cardiff, Tory Hill, Coboconk and Wilberforce on Saturday.

The Man

If there is one single, overriding catch-phrase in the current Provincial election it's 'VOTE THE MAN'. It's heard on every side from voters of all ages and political persuasions.

It reflects, we feel, a knowledgeable electorate aware of the perils inherent in majority government by candidates elected according to party colors.

Even more, it spells out the growing realization that representation of a riding, to be effective, demands the very best candidate available. How do we in Victoria-Haliburton, then, pick that man? This is the question facing each and every voter as he and she prepare to go to the polls on June 9.

In this riding we are blessed with three most able candidates.

Representing the N.D.P. is 37-year-old Fred McLaughlin, a family man, an educator and an experienced campaigner making his second bid for the riding's seat.

Progressive Conservative standardbearer is a Fenelon Falls political newcomer, Jim Webster. The P.C.'s have pinned their hopes of regaining the riding on this dedicated 29-year-old lawyer and, taking no chances, have poured in the big money and the big names, Intent on retaining his seat in the Ontario Legislature is the Liberal incumbent John Eakins.

A Lindsay businessman and former mayor of Lindsay, Mr. Eakins first represented this riding at Queen's Park following the last election some 18 months or so ago when he toppled the Tories and their long-time domination of the riding.

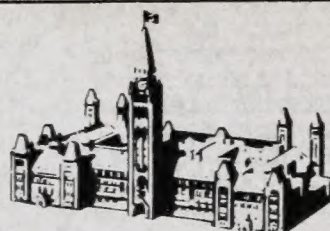

Since that time Mr. Eakins has demonstrated a concern for the problems of the people and organizations of this riding as well as willingness to work for them beyond the wildest expectations of even the staunchest Grit. Purely on the basis of his performance these past 18 months Mr. Eakins has earned and deserves our support.

In Victoria-Haliburton we can't do better than 'VOTE THE MAN'.

ONCE AGAIN, THE BALLOT BALLET!

OTTAWA and Small Business

In the midst of the universally heralded energy crisis, it comes as some surprise to learn that Canada's energy suppliers continue to function in blythe ignorance of this disaster.

How else can one explain pricing policies of the nation's electric utilities that reward extreme consumption of this increasingly rare and vital energy?

Several decades ago, when there was, in most parts of the country, sufficient water power to generate far more cheap electricity than the nation could use, the utilities devised a pricing scheme to encourage greater consumption. Small-scale consumers were charged a base rate per kilowatt hour; as consumption increased, the cost decreased. Ultimately, the energy-hungry major industrial users ended up with by far the cheapest rate per unit of electricity.

The electrical supply situation has changed dramatically in recent years, of course. For the most part, Canada's hydro potential has been exhausted. Additional electri-

city means construction of coal, oil, or nuclear generating stations, all of them very expensive to build and enormously costly to operate.

The basic engineering fact of electrical life, however, is that Canada has far more generating capacity on hand right now than we need for the foreseeable future — except for some very brief periods during the day when demand jumps sharply. These brief periods of extra demand are called "peak periods" and the electric utilities plan their capacity to meet the peak demands, not the average demands.

And what causes these peak periods? A few very heavy users of power. The same firms that get the lowest rates because they use the most power. Or, to put the matter another way, the users who are responsible for the highest costs pay the lowest prices.

The small users of electricity — both smaller firms and households — pay much more for electricity than it costs the utility to provide it. The big users pay less than the

An Electrifying Situation

by JIM SMITH

cost.

The logic may escape you. Certainly it escapes the Canadian Federation of Independent Business which is currently intervening in an Ontario Energy Board hearing concerning pricing by Ontario Hydro. The C.F.I.B. argues that power users should pay the cost of their service. Not only should the subsidies for major users be eliminated, but these users should be charged higher rates equal to the cost of providing their electricity.

The Ontario Energy Board decision will shape pricing policies of virtually all Canadian power utilities. And the major power users have allied to mount a strong defence against loss of their privileged position.

But the real issue is non-negotiable. In an age when energy is increasingly vital and increasingly rare, Canada simply can't afford to reward excessive use of this precious natural resource.

FINANCIAL REPORT

STOCK MARKET ACTION

Volume of stock trading on the Toronto Stock Exchange jumped sharply in May, as investors became more optimistic about the future trend of share prices. The oil and gas group has made its best gains in four months, and activity amongst the mineral exploration group has jumped sharply. Another group which has become active is the high-yielding dividend payers, including many of the utility stocks. The pipeline index hit a four year high this month, and transportation, real estate and construction were also strong.

Increased consumption of oil and gas, metals and forest products should accommodate a strong recovery for Canada's natural resource industries over the next 12 - 18 months.

U.S. ECONOMY GROWING STEADILY

The United States Commerce Department has announced that real gross national product rose 6.4 per cent in the first quarter, a big jump from earlier estimates of 5.2 per cent reported in April. Charles Schultze, Chairman of the Council of Economic Advisers has predicted a higher rate of growth in the current quarter. Such news should go a long way toward bolstering investor confidence in the United States economy, as well as improving expectations for the Canadian economy which is to a large extent dependent on economic performance south of the border.

THE ENERGY RESOURCE OUTLOOK

In spite of steps being taken to increase energy conservation, consumption rates are projected to grow rapidly over the next ten years. Oil will continue to be the greatest source of energy, and it currently appears that the United States and other consuming nations will rely increasingly on the Oil Producing and Exporting Countries (OPEC) for much of their crude oil requirements. Arabian oil is forecast to rise sharply in price over the next few years as demand surpasses OPEC productive capabilities.

In light of current projections it is a virtual certainty that prices will continue to rise sharply for oil, gas, uranium and coal produced in Canada and the United States. We predict the natural gas drilling boom in western Canada will reach much greater rates of activity by both majors and juniors in the years ahead in view of the significant petroleum reserves yet to be discovered and developed.

Nuclear power will not replace oil and gas as an energy source for some time due to the long lead time required for nuclear generating capacity installation, but long term sales contracts for uranium supplies are expected to keep demand high and prices rising.

Over the past month, stock market activity has been dominated by energy resource issues, a situation which we expect will generally prevail as long as the current world energy scenario exists. Investors are advised to place an emphasis on this resource sector of the stock market in order to reap the benefits of increasing energy demand.

COPPER SUPPLY-DEMAND

Copper is the most widely used industrial mineral in the world and, as such, is discussed more in the investment community than other metals, excepting perhaps gold. The determining factor influencing copper demand, and thus prices, is the rate of economic growth in the industrialized nations. Although the world economy is recovering gradually, record high stockpiles of copper have prevented any substantial price increases during the past few months.

The copper price rose earlier this year but was unable to hold the gains in the face of over-supply

Two threats to world copper production currently exist which could cause a sharp reversal in the supply/demand imbalance and push prices up sharply over the near term.

One month from now, on June 30th, the labour contracts of the U.S. copper producers expire. It is generally expected that a major strike will occur, cutting deeply into world productive capacity. (A one month strike could lose about 150,000 tons of production). Some observers are predicting a lengthy strike lasting several months, which would result in a considerable drop in world inventories.

Another threat on the copper scene is the political problems in South Africa. Several hundred thousand tons of copper shipments could be lost through the inability of certain countries, particularly Zaire and Zambia, to get their product to coastal ports.

Uncertainty is the biggest element in considering the world copper supply/demand scenario over the coming months. Whatever the outcome of near term developments affecting production the long term outlook is positive. As world economic development spreads, copper will have an important place in industrial expansion and power transmission.

Periods of weakness for copper producers' shares should be seen as opportunities to accumulate long term investments of good potential bargain prices.

*GENERAL AMERICAN PROPERTIES INC.

General American is a real estate investment company holding an inventory of raw land in Newmarket, just north of Metropolitan Toronto. The property, consisting of nearly 150 acres, has 1,836 feet of frontage on Don Mills Road, Newmarket, Ontario. The company purchased the property in 1974 as an investment in the expanding real estate market north of Toronto, one of the fastest growing metropolises on the North American continent.

The Company's property has, and will continue, to grow in value as a result of its close proximity to Metro Toronto, and is attractive for industrial or residential development.

The increasing activity in the real estate business in the Toronto area augurs well for General American. Under new management, we expect the Company will be actively seeking opportunities to subdivide its land inventory for the purpose of development. The new management behind General American is made up of successful businessmen who, we believe, to be of the highest calibre, and who will be the driving force in the future affairs of the Corporation.

Declining interest rates, subdued inflation, and a steady recovery in economic activity are beginning to foster renewed interest in the real estate development field. Increased activity in the real estate market can be expected to lead to rapidly rising values for land such as that held by General American. It is this steady increase in land values which contributes to the underlying value of the shares of the Corporation.

Investors seeking participation in the real estate investment field are advised to buy General American Properties Inc. at the market price of \$2.00 per share.

So it's election time again. It is not my intention to discuss the issues, nor the candidates.

I feel however, compelled to say that the leaders of the three main parties are once again making promises by the dozen, many of which they CAN'T keep, and many more which they WON'T keep.

Please let us stress once again that promises and additions only result in one thing - spending money. Not the Politician's money but YOUR MONEY.

As each tries to outdo the other in criticism and promises to the people, please let us all judge the MAN in our own riding.. It makes sense to look at the service and attention which you have, or have not received in the past, from YOUR representative. If you have received good service, then it makes sense to return THE MAN OR WOMAN to office again. If you do not consider that YOUR representative has given YOU good service in the past, then look for the representative who you feel will work best on your behalf in YOUR riding.

In the world today this is the only way to judge, for our good.

Granny's Tea

An integral part of the Grandmother's Tea held last week at Hyland Crest Senior Citizens Home was the ever-popular White Elephant Sale. Items for sale ranged from potted plants to hand-made cushions.

Winner of the draw for an afghan was Miss Michelle Gibbard of R. R. 2 Minden. The lucky ticket was drawn by Mrs. Violet Deumoz, President of the Residents' Council. Pictured above, top, is Mrs.

Helen Cox, right, as she tries on a wool hat with Ellen Holden looking on. The other photo shows some of the 50 persons filling out tickets for the afghan draw.

ONTARIO ELECTRICAL LEAGUE VICTORIA - HALIBURTON CHAPTER

DO YOU KEEP WHITE ELEPHANTS?

Do you change or clean the air filter in your hot air furnace regularly? Dust clogged filters cut down air circulation requiring the furnace to run longer to bring the house to the desired temperature.

clogged filters cut down air circulation requiring the furnace to run longer to bring the house to the desired temperature.

Have you examined outdoor extension cords for fraying and breaking of insulation? Not only are frayed cords dangerous, but contact with snow or wet grass could result in power leaking away to the ground.

Do you have an automatic washer or dryer? If so, try putting the clothes through a second spin dry in the washer. Doing this cuts the time in the dryer substantially.

Cutting back the thermostat on your heating system at night to 68 degrees from 70 degrees not only is agreeably noticeable on your fuel bills; the cost of cold remedies will probably decrease

Do you play games with the thermostat by moving it up to 80 degrees one minute because you're cold and down to 70 degrees the next minute because you're hot? If you do, it is a relatively expensive game in terms of fuel dollars. To get the most for your money, set the thermostat at the day time temperature you are comfortable with and only cut it back when you retire for the night.

Ontario Farmers

Classified Driver Licensing Regulations have been amended

If you hold a Class 'G' Licence you may drive a Class 'D' Farm Vehicle.

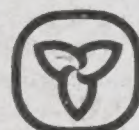

- Class "G" refers to cars, light trucks, etc. up to a registered gross weight of 18,000 lbs.
- Class "D" refers to vehicles such as stake trucks which exceed 18,000 lbs. gross vehicle weight, provided any towed vehicles are not over 10,000 lbs.

The new regulation gives the busy farmer more freedom in assigning full or part-time helpers to drive his farm vehicle — for example, during seeding or harvest time. If he or they hold Class "G" licences, the Class "D" farm vehicle may be driven provided it's owned by the farmer, registered and licensed as a "Farm Vehicle", and used for

personal transportation or trucking produce or equipment.

Class "D" Farm Vehicles may not be driven by anyone who holds only a Class "L" instruction licence or Class "M" motorcycle licence.

Hall's Lake News

Doreen Stinson

Another lovely sunny week with a mixture of sun and shade, coolness and heat, dryness and rain. Saturday's shower was most welcome, although not sufficient to penetrate the parched soil and yellowing grass. Perhaps this next week will provide us with some much needed rain.

Although there were not the people around this past week-end as over the previous holiday week-end, still quite a few city people arrived to take in the Firemen's Ball Saturday Night which was another decided success at Carnarvon Lanes. The music by Ray Jenkins was excellent, prizes good and food delicious which all added up to a happy evening for all who made up the capacity crowd.

Mr. and Mrs. Dave Lake of Big Hawk Lake are working like beavers on the addition to their cottage, painting and fixing things up for another season.

A most enjoyable bus trip to the Toronto Zoo was organized by the ladies of Carnarvon Zion United Church for last Wednesday. Since the weather had been terribly hot, and just cooled off enough to make the trip pleasant as well as comfortable for the extensive walking, the ride on the convenient mini-train, going through the various buildings and standing watching the absolutely incredible species of animals in view, it all added up to a very worth-while and inexpensive outing for almost 50 passengers. Many thanks are extended to the ladies who planned the outing and to Lil Rawlins who kept everyone amused with a great collection of songs and jokes. Stopping at Oshawa Centre for dinner enroute home and an hour's time to look around the stores, was a nice ending to a perfect day.

Sorry to learn of the break-in at the MacLaughlin cottage on Hall's Lake. After 37 years of quiet inobscure the meddlesome thieves and law-breakers have broken into this elderly cottager's property and helped themselves to private possessions.

The Robert Conways of Orchard Park in Buffalo spent a few days at their lovely cottage over on the sand beach.

Good to see Lawrie and May Arthur back at their hide-away home on Peach Lake. Their family from Bancroft and Frobisher Bay also spent the week-end at their cottage next door.

The Richard Kinsmans attended a 50th Anniversary of their Old Highschool in Saltfleet several weeks ago, and met up with many of their former school friends and classmates.

The Strouds are here to enjoy their Summer at Hawk Lake once more.

Congratulations to Alex Kerr who won a very useful planer donated by Carnarvon Lumber Co. at the Firemen's Dance Saturday evening! A lady from Eagle Lady won the 'glass turkey'.

Several ladies from the St. Stephen's congregation attended the Service of Confirmation at St. Paul's in Minden Sunday morning at 11 A.M. A class of seven took their Vows and a full church turned out for this impressive ritual.

Mrs. Audrey Wilkinson has just returned from a few days visit with her sister and family in Fort William.

Everyone is conscious of the caterpillar scourge, and also very aware of the dryness and the news that we are in a DANGER ZONE in so far as fires are concerned. The Ministry of the Environment has posted bright notices in all public places to say that no fires of any kind are allowed and until further notice.

It seems that certain people on Council here in Stanhope are determined to have flower borders planted in the front driveway of the Firehall on the North Shore Road. Flowers would make the place look nice all right, but is it really practical to have them in the yard where the big truck, the emergency vehicle and the firemen themselves come and go, sometimes in great haste to meet an emergency? Flower borders back against the building clearing the doors of course, or a big window box with pretty petunias or some such flowers, would serve the purpose without hindering the purpose of the firehall, would seem more acceptable. Why were not two, at least, of the firement asked their opinion on such an issue anyway?

Had a pleasant Sunday evening dinner with Ruth and Archie Neil and viewed the progress being made on the big addition to their cottage which will eventually be their all-year-round home at Kushog Lake. Mr. Earl Langdon is doing a fine job of carpentry and the general layout of the structure, along with the fine view of the lake and the accessibility to the road, and the highway should make it a

pleasant place to live. They are also cultivating a fine garden in all the patches of ground surrounding the house. Nice to be with enterprising people and hear their plans for the future!

Sorry to drive back to Shangri-la Villa last evening and find the building falling into such disrepair. Fifteen years ago it was being run as a lively Summer Lodge with a few cottagers around. Now there are bigger cottages but the big building doesn't look very desirable for habitation.

Some of our locals attended the Grandmothers' Tea on Friday afternoon at Hyland Crest and said it was a very pleasant affair. A lady from Toronto, we believe, held the luck ticket on the afghan.

Annual water quality tests recommended

'Householders with private wells should conduct annual water quality tests to ensure safe drinking water,' says Dr. Hugh Whiteley, agricultural engineer at the Ontario Agricultural College in Guelph.

This is a good time of the year to take bacteriological water tests because water tables are high. If problems are likely to occur, they will show up now.

Bacteriological tests are available free of charge through local health units where the householder must pick up the necessary sample bottles and instructions.

Through bacteriological tests, it is possible to determine whether disease-causing organisms may be present in the water supply.

Dr. Whiteley says there are two parts in the bacteriological test. Samples are first checked for the presence of coliform bacteria.

'If there is no coliform bacteria present in the sample it means you can be confident there are no disease-causing organisms'.

If coliform bacteria are present, the sample is then

checked for faecal coliform bacteria.

'When a few coliform but no faecal coliform are present, the water should be monitored through regular testing. If over several months no faecal coliform appear, the water is probably safe to drink if tested quarterly.'

Dr. Whiteley says the presence of faecal coliform bacteria usually results from septic tank or manure storage area seepage. When faecal bacteria are present, the water can carry diseases such as dysentery or typhoid.

Although the seepage problem occurs more often in older-bored or hand-dug wells and springs, Dr. Whiteley says even newly drilled wells should be checked annually.

Bacteriological water tests do not check for the presence of chemicals in the water supply.

'If a peculiar taste or odor is noticed, or if there is reason to suspect chemical contamination, contact the local health officer for advice.'

LAWN

FROM P. 1

drought conditions and an excessively high chance of forest fires, council passed a by-law that regulates the use of the Municipal Water System.

Effective this week no person will be allowed to use town water for gardens, lawns, washing of vehicles, construction works or any similar uses during the hours of 7 a.m. to 8 p.m.

Furthermore, the Reeve has the authority to declare a period of water conservation at any time deemed expedient, in order to insure enough water is available for domestic and fire protection services.

To add some teeth to the by-law council decided that any person convicted of con-

travening the by-law can be fined not more than \$100. A second offender faces automatic disconnection from the water system and shall be reconnected only upon the approval of council.

Council's decision comes quickly on the heels of an edict handed down by the Ministry of Natural Resources banning all fires throughout the Algonquin Region, including Minden District. That emergency decree bans all open fires, even for food and warmth, and includes campfires, incineration and bonfires, and is the first time such a ban has been imposed in this region, in the entire history of the Ministry.

Progress Fire Watch

Despite a brief rainfall last Saturday the fire hazard in Minden District is still 'extreme' according to Ministry of Natural Resources officials late Tuesday.

They say that all but two of the many fires burning during the past week in the district (47 at one time) are now out.

These two are located in Harburn Township.

Total damage from fires throughout the district during the past seven days totals some 100 acres destroyed.

Biggest single cause of the drop in the number of new blazes has been last week's imposition of a total ban on all open fires throughout the Algonquin Region.

Officials say that so far there have been only 4-5 violations of the emergency decree, with warnings issued in all cases.

In all, three Haliburton County dumps were found burning: Haliburton, Tory Hill and Ingoldsby and in all three instances municipal cooperation was given quickly and fully.

In the province generally, the fire hazard has dropped slightly with the Chapleau-Timagami area the hardest hit of all.

The oldest state Constitution is that of Massachusetts, which was adopted in 1780.

NOTICE Conservation Of Water TOWNSHIPS OF ANSON, HINDON & MINDEN

DUE TO THE HOT DRY WEATHER, EXCESSIVE WATER HAS BEEN USED FOR LAWNS AND GARDENS AND WASHING CARS, THEREBY REDUCING THE WATER PRESSURE.

ALL PERSONS IN THE MUNICIPAL WATER SYSTEM ARE URGED TO PRACTICE RESTRAINT BY CURTAILING THE WATERING OF LAWNS AND GARDENS AND THE WASHING OF CARS, PARTICULARLY BETWEEN 9 A.M. AND 8 P.M. EACH DAY.

IF THESE VOLUNTARY WATER RESTRICTIONS ARE FOLLOWED IT WILL ASSIST IN AVOIDING A POSSIBLE FIRE HAZARD SITUATION DUE TO LOW WATER PRESSURE. THE CO-OPERATION OF ALL CITIZENS IS REQUESTED.

**RICHARD G. SCHELL
WATERWORKS SUPERINTENDENT.**

Trent-severn Waterway News

The past week has continued sunny and dry with some of the nicest May weather in years. This has not improved the water supply situation, however, and has forced us to draw more heavily on stored reservoir water. Kawartha Lakes levels have begun to sag in recent days despite outflows having been reduced to bare minimum. This means only one thing, that more water must be run down from the reservoirs to maintain the Kawarthas for navigation.

On May 24 the storage available on the reservoirs was about 85 percent of maximum. Gull River flows at Norland after today (May 27) will be close to 650 cubic feet per second (cfs) while the Burnt River will be running about 300 cfs. Otonabee River flows past Peterborough are between 500 and 600 cfs.

As the water warms up evaporation will increase so that larger amounts of reservoir water will be needed unless significant rainfall comes.

Construction is continuing to progress on the new Big Chute Marine Railway. The new railway when completed in 1978 will have a much greater capacity than the existing one. The new car will be able to accommodate boats up to 100 feet in length with 24 foot beam, a 6 foot draft and a weight of 100 tons. The railway car itself will be 80 feet long and taller than a 3 storey building and weigh 110 tons.

Log booms have been placed again upstream of reservoir dams and some dams on the main navigation channels. Boaters should be on the lookout for the booms as they float low in the water.

Also extreme care should be shown when on or near any of these dams due to the danger of being trapped by the undertows should anyone fall off the dam itself, or if their boat should capsize in the vicinity of these structures.

About the Town

with Jeanne Sears

Read in the Toronto Star how a letter was 'misaid' for 326 days, seems our postal service in large centres is very inefficient. In our Area this service is excellent and our staff are very obliging. This past week we received a letter from Australia mailed just a week before. Now the cost has gone up we thought we would get better service. We wonder how long it takes the local newspapers to be delivered, our own hometown paper reaches us on Thursday and is published and posted on Wednesdays.

Sincere sympathy goes to the families and friends of the late Mrs. Walter Noice and Jim Robinson whose funerals were since last week.

The community sends belated good wishes to these people at Hyland Crest who celebrated birthdays in May: Irene Stewart, Marjorie Kanally, Henry Robinson and Ralph Gibson.

Holiday guests with the Wally Browns included Mr. and Mrs. Randy Taylor and boys of Sterling (Sunday) and Mr. and Mrs. Ronald Brown and girls (Monday).

Hint of the week—If you drop an egg on the floor, sprinkle salt over this and let set about 20 minutes, then you can sweep up the mess.

Congratulations to Mr. and Mrs. G.M. Durant who celebrated their wedding anniversary, Saturday, entertaining friends.

Winner of the afghan at the Hyland Crest Tea last Friday afternoon was Michele Gibbaid.

Gerald Coulter, of Toronto, met Garnet Coulter of Campbell River, B.C. and they came to Minden; Gerald spent the week end and Garnet is enjoying a visit with friends and relatives and staying with his parents Mr. and Mr. Angus Coulter.

Peggy Davis of Peterborough has been visiting Mr. and Mrs. Norm Lee (her daughter).

All his friends send good wishes to Jim Beattie who is a patient at Ross Memorial Lindsay, also sorry to report Margaret Brown is suffering a broken arm.

Halden Curtis of Pennsylvania is enjoying a holiday in the area and is visiting friends and relatives.

Winner of the colour T.V. drawn for at the Minor Hockey Banquet was Bud Mansfield of Kinmount holding ticket 4264.

Librarians and Staff of Haliburton County Library had their Workshop at the Office in Haliburton last Wed. afternoon. Plans were made for special events over the summer; extra staff with two students makes this possible. Some of the ladies met Stan McDougall, head Librarian, for the first time, and he explained that this year adult fiction and readable non-fiction will be purchased supplemented by good paperbacks. It is hoped the County Office will have an Information Centre available to all, so that requests or information may be quickly obtained.

Mr. and Mrs. Phil Robinson and Bradley enjoyed a short trip to Meaford visiting the Boyles there and on to visit the McPeakes at Gravenhurst.

Next coming event is the Beef Barbaque-Dance at the Arena June 11. The social time starts at 6 and the dancing is from 9-11 with music by Misty River Ramblers with proceeds going to Agricultural Society.

Do you think this is true? The secret of life is not to do what one likes, but to try to like what one has to do.
D.M. Craik.

The construction crew is back completing the work on our bridge, so everyone is using the Bailey Bridge once more. So watch out, plan to leave a little earlier as there may be stoppage there. Anyway more traffic so drive carefully. Cheerio until next time.

Eakins signs up

Victoria - Haliburton incumbent Liberal M.P.P. John Eakins took time out from his busy election campaign last week to file his nomination

papers with the riding's Returning Officer, Mrs. Catherine Boyd. In complying with the Ontario Election Act for the upcoming June

9th Provincial election. Pictured above, left to right, are Doug Fisher, campaign manager; Mrs. Catherine Boyd; Dr. Ron Sears, Eakins of-

ficial agent; Liberal candidate John Eakins; and Bruce Glass, finance chairman.

Provincial Youth Employment Program to aid local jobless

...Eakins

John Eakins, M.P.P. (Victoria-Haliburton) says he feels the Provincial Youth Employment Program should help to alleviate the grave unemployment problem among our youth this summer. This will take the form of a cost-subsidy program and it is hoped this will assist about 20,000 young people. This special \$10 million program will grant eligible employers from the business and farm sections of the economy, a one dollar an hour subsidy for each new job they create, to employ Ontario's youth. Through this program, eligible employers are entitled to be subsidized for a maximum of six new jobs per operational site. Employers must declare that the jobs subsidized through the Ontario Youth Employment Program would not have existed had it not been for the program's assistance, thus ensuring these jobs are in fact new jobs, said Mr. Eakins.

Pending legislation, the duration of the 'Ontario Youth Employment Program' will be sixteen weeks, commencing Monday, May 30, 1977,

and ending Friday, September 16, 1977. Mr. Eakins points out that eligible employers need not participate for the maximum 16 week period but that 4 weeks was the recommended minimum for each job.

Final approval of the required legislation is expected in the near future. The program's applications are available at local Canada Manpower Offices and Canada Manpower Centres for Students throughout the province. Employers may also obtain information about the program by contacting the Ontario Youth Secretariat or calling Mr. Eakin's office.

Modern smallpox vaccine does not come from human beings, but is cultivated in calves.

Graduate

Marilyn Darby, daughter of Gord and Darlene Darby of Ingoldsby, recently graduated from Durham College in Oshawa with her College of Applied Arts and Technology Diploma in General Business (Finance and Accounting Option). Marilyn is one of a record 407 graduates from Durham College this year. She is a former graduate of

the Business and Commerce course at Haliburton Highlands Secondary School. Marilyn has taken up a management - trainee position at the Toronto - Dominion Bank in Newmarket. Also receiving diplomas at the May 28th Convocation exercises were Kim Coulter and Roger McInnes, both of Fenelon Falls.

The blue whale is the largest creature that ever lived. Some specimens are 100 feet long.

Choking requires immediate action, JOIN THE CROWD says O.M.A.

The Ontario Medical Association has written a pamphlet on Choking for physicians, paramedical personnel and other persons engaged in rendering life-saving measures.

Dr. John Slater, chairman of the OMA Committee on Public Health said, 'Anyone can suddenly choke on a piece of food in a restaurant. Children have choked on toys and buttons and older people have been known to choke even on dentures.'

He said that there is not always time to wait for an ambulance or the fire department when someone is choking and that asphyxiation can kill even a healthy individual within four minutes. The pamphlet, published by the Ontario Ministry of Health will be distributed to firefighters, police, St. John's ambulance personnel, health units, nursing homes, homes for the aged, the Canadian Restaurant Association and all physicians in Ontario by the Ministry.

Dr. Slater said, 'If an untrained person suspects an individual is choking he can push his fingers into the victim's mouth, over the tongue to the back of the throat, in an attempt to dislodge the object which may be stuck at the back of the tongue. If this is

not successful then a person should wrap his arms around the victim's waist. The victim's head, arms and upper body should fall forward. The person can bring his fists together against the victim's stomach with quick, upward thrusts.' Dr. Slater warned that un-

trained persons can also do harm to an individual in an emergency and he encouraged Ontario residents to take first aid courses to learn how to cope in such a situation.

At the age of 22, Ludwig Van Beethoven paid 19 cents to take his first music lesson from Franz Joseph Haydn in Vienna!

TOWNSHIPS OF ANSON, HINDON & MINDEN NOTICE

At the request of the Council of The Township of Anson, Hindon and Minden, The Ministry of the Environment has investigated the possibility of installing a water works project within the Community of Minden, and now proposes to construct the second phase of such works, consisting of a 298,100 imperial gallon ground storage reservoir and improvements to the two existing well pumping stations, at an estimated cost of \$348,810.00, on which a provincial subsidy of \$198,598.00 is anticipated, and to make application to the Ontario Municipal Board for approval of the undertaking and imposing of a special water works rate as set out below.

These works were previously advertised as part of an over-all project in October, 1975, but the costs have since increased. It is proposed to meet the presently estimated annual cost of \$19,227.00, which includes the mortgage type payment, reserve for contingencies and operating cost, by a mill rate levy of 30 mills on all lands within a special water area, defined as being all those lands in the municipality fronting or abutting upon any highway, lane or other public communication in, through or along which the water works mains are laid, as well as all other lands distant not more than 300 feet therefrom. Also, it is proposed to increase the annual water bill of all consumers by 30 per cent.

On the basis of these levies, a house having an annual water bill of \$44.00, an assessment of \$1,200.00, and a frontage of 80 feet, would pay:

For the approved Phase I of the project (watermains which are presently under construction):

80 ft. frontage @ 89 cents	\$71.20	
Connection charge	21.00	\$92.20

and for this Phase II application:

30 mills	\$36.00	
30 percent increase in water bill	\$13.20	49.20

Total charges for both phases: \$141.40 per year

Any ratepayer may, within twenty-one days after the first publication of this notice, deliver or send by prepaid registered post to the clerk of The Township of Anson, Hindon and Minden at the address given below, a notice in writing stating his objection to such approval or the imposition of the special rate, and stating that if a hearing is held he or his agent will attend such hearing to support his objection.

The Ontario Municipal Board may approve the special rate pursuant to the statute and may approve of the said works, but before doing so, it may appoint a time and a place for a public hearing when any objections will be considered, but notice of such hearing will be given only to those persons who have given notice of such objection as provided for above.

All plans, reports and estimates may be inspected at the office of the undersigned during business hours.

Dated at The Township of Anson, Hindon and Minden and first published this 25th day of May, 1977.

Honorary degrees for scholar, dancer

PETERBOROUGH—A distinguished Canadian dancer-choreographer and an internationally noted scholar will receive honorary degrees at Trent University's spring convocation June 3.

They are: Celia Franca, artistic director and co-founder of the National Ballet of Canada, and Jose Valverde, until 1975 chairman of Hispanic studies at Trent. Miss Franca was educated at the Guildhall School of Music in London and the Royal Academy of Dancing. In 1947 she joined the Ballets Jooss and taught classical technique and in 1948 became ballet mistress and leading dancer of the Metropolitan Ballet in London.

Also in 1948, as a consequence of Toronto perfor-

mances by the Sadler's Wells Company, enthusiasts formed the National Ballet Guild. Miss Franca was nominated as director.

With a scant \$12,000 from Toronto backers Miss Franca worked days in a department store and nights as director of the Guild. From those difficult beginnings came Canada's present-day National Ballet, equal in quality to the world's best. Professor Valverde, until 1975 chairman of Hispanic Studies at Trent, is at present a member of the faculty of McMaster University. He intends to return to Spain later this year. He is the author of several books of poetry and of literary criticism, and among other such work, has translated the works of

Shakespeare into Spanish. He has lectured at the University of Rome, the University of Barcelona, the University of Virginia, as

well as Trent and McMaster. Professor Valverde's undergraduate and graduate degrees were earned at the University of Madrid.

Seven hurt in four crashes

One person is in serious condition in Haliburton Red Cross Hospital, while seven others escaped with minor injuries in four separate accidents two weeks ago. Total damage in the four collisions was estimated at \$15,000.00 while one driver has been charged by police. Early Saturday afternoon on the Elephant Lake Rd., seven people were injured in a two-car accident. Jerry B. Klasner, 24, of Willowdale, was northbound on Elephant Lake Rd. when he rounded a curve and crashed into a car driven by Elmer R. McGuire 25, of Toronto. The accident was blamed on dust raised by the two cars causing them to collide near the centre of the road. Both cars were damaged to the extent of \$2,000 each. In Haliburton Hospital, in serious condition, is Mr. McGuire while six others suffered minor injuries in the

mishap. Investigation by Provincial Constable, Weldon Popp. On Monday of last week, a tractor-trailer load of chips from Martin's Mill, southbound on Elephant Lake Rd., rounded a curve and went onto the shoulder of the road where it rolled over on its side. Wayne Whitney 30, of Bancroft, received minor injuries in the accident, which saw \$10,000 damage to the tractor-trailer and an additional \$2,000 damage to the load of chips. Investigation by Provincial Constable Weldon Popp. Paul D. Cassell 16, of Scarborough, was charged with careless driving last Thursday evening, when the car he was driving on Hwy. 35, just north of the County Line went onto the east shoulder and crossed the road entering the west ditch where it rolled over. Damage has been estimated

at \$1,000 to the the 1972 car. Investigation by Provincial Constable Al Rollins.

SALE BY TENDER

MODERN RESTAURANT-TAVERN LAND AND BUILDING

Under instructions received from "The Mortgage" sealed tenders will be received by the undersigned Liquidator until 12 noon Friday, June 10th, 1977 for the following assets of: —

OL' BARN RESTAURANT AND TAVERN HALIBURTON, ONTARIO

RESTAURANT AND TAVERN: Fully licensed restaurant - tavern - dining lounge, located in one of Ontario's most popular year round tourist and vacation regions. • The only "licensed" premises within the Town of Haliburton • Seating capacity approx. 95, with fully equipped bar, restaurant, kitchen, dining room, buffet and "drive-in, take-out" facilities, with all fixtures, leasehold improvements, equipment and wares less than 3 yrs. old.

BUILDING: Approx. 3,600 sq. ft., unique barn-like structure, completely modernized and reconstructed 1974 • Fully air conditioned and well insulated, with 2 oil furnaces and paved parking.

LAND: Approx. .507 acres in the Town of Haliburton, with approx. 142' frontage on Hwy. #519 (Maple Ave.), near intersection of Hwy. #121 • Part of lots 1, 2, 6, & 7, Block U, Town Plot of Haliburton, Township of Dysart, County of Haliburton • Approx. 125 miles N.E. of Toronto and proximity to Minden, Algonquin Provincial Park, Huntsville, Bracebridge and Muskoka area, Oshawa, Lindsay, Peterborough and Kawartha Lakes Region etc. • Tenders may be submitted "en bloc" for the real estate and the restaurant or by parcels or "piece by piece" on the equipment. The highest or any tender need not be accepted.

PLEASE NOTE: Terms may be arranged to a suitable purchaser "en bloc", and dining lounge license may be available.

INSPECTION DATE: Saturday, June 4th, 1977 from 10 a.m. till 3 p.m.

DIRECTIONS: From Hwy. 401 take Hwy. 115 and 35 Exit, follow Hwy 35 North to Hwy. 121 — Haliburton Exit, take Hwy. 121 into Town of Haliburton. • Turn left at Maple Ave (Hwy. 519).

PLEASE NOTE: Complete terms and conditions of sale and additional information available at inspection or upon request.

All tenders must be marked Re: Tender of the above estate and addressed to —

Junior Ranger program admits extra students

An extra 300 high school students will have jobs as junior rangers this summer, bringing the total number to 1,926.

The increase was announced in the legislature Thursday by Natural Resources Minister Frank S. Miller as part of the government's plan to

provide more employment for students this summer.

'The 300 additional students will be selected from 3,200 applications already received,' said Mr. Miller.

'The students will work in a natural environment and learn firsthand about our management programs from such professionals as foresters, biologists and geologists.

ists. They will be paid \$10 per day and make \$470 in the eight weeks they are at work,' he said.

Junior ranger jobs begin on July 5 and end on August 27. They are limited to high school students who are 17 years of age and in good physical condition. Girls are expected to number 696 or 36 per cent of the total.

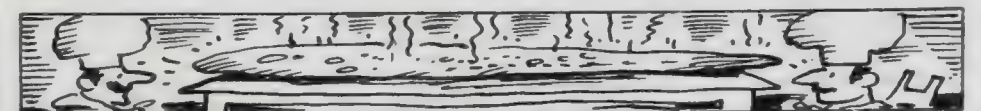

Pizza anyone!!!

Another new addition to Minden's burgeoning food scene is Jean Foster's pizza parlour which opened last week. Located on the by-pass, next to the Ontario

Provincial Police office, Jean's new business not only offers some delicious pizza but also boasts some of the best submarines around. The pizza parlour is

open from noon to midnight, Sunday to Thursday, and is open from noon to 2 a.m. on Friday and Saturday.

To make the largest pizza ever—eight feet in diameter—Little Rock, Ark., chefs used 150 pounds of dough, 25 gallons of sauce, 75 pounds of pepperoni and 200 pounds of grated cheese.

Eakins on the issues

In a statement released to-day, John Eakins, Liberal incumbent, seeking re-election to the Ontario Legislature, outlined what he feels is the main issue in Victoria-Haliburton.

First and foremost, Mr. Eakins feels, is the continuing need for the elected representative to work to encourage employment opportunities in this riding. This can be done, states Mr. Eakins, by:

1. Making new industry, that is looking for a location, aware of the benefits of living in our riding and reviewing with them the available locations.

2. Informing our existing business, particularly the small business, of the available government programmes and helping them in their efforts to attain the benefits of these programmes.

3. Actively pursuing the clean-up of our lakes and rivers so that we can be an even more attractive haven for tourists.

4. Promoting in the legislature the policies of tariff protection and an improved voluntary farm income insurance plan to give the riding a strengthened agricultural base.

These are the methods that Mr. Eakins feels can move this riding to providing increased employment and making Victoria-Haliburton a better place to live.

Impurities in saccharin produce genetic change

OTTAWA- The Department of National Health and Welfare have announced that Health Protection Branch (HPB) scientists have found a concentrated mixture of impurities from commercial saccharin produces genetic changes (mutations) in microorganisms. The findings may be of particular importance because many known carcinogens are also mutagenic.

Since the recent Canadian announcement regarding restrictions on the use of saccharin, basic research to uncover the mechanism of toxic action of this chem-

ical has continued in HPB laboratories. Particular emphasis has been placed on assessing the mutagenic potential of saccharin, using a short-term procedure known as the Ames Test. This test, which uses bacteria as test organisms, is recognized as one of the most successful of the new short-term predictive tests for carcinogens.

Although saccharin itself did not cause mutations, concentrated mixtures of impurities extracted from it were mutagenic in the Ames Test. The mutagenic activity was detected not only in the

saccharin used in the recent HPB cancer study, but also in several other lots of commercial saccharin. The mutagenic compound(s) have not yet been identified, although studies to do so are continuing.

The Health Protection Branch findings have been confirmed in the laboratories of Dr. Bruce Ames, University of California, who developed the test.

\$3,100 damage in 3 - car crash

A three-vehicle accident last Sunday has resulted in some \$3,100 damage and a charge being laid against one of the drivers.

The early morning accident, which occurred on County Road 3, involved a 1974 car driven by 18 year-old Paul G. Lawson, of R. R. 2 Cavan, a 1972 car driven by James C. Sproats, 23, of Hamilton and a 1968 car driven by 28 year-old Bradley E. Reil of Gooderham.

Lawson and Sproats were northbound when the southbound Reil car side-swiped the left side of the two northbound vehicles. As a result Reil has been charged with failing to share half of the roadway.

Damage to the Lawson vehicle was set at \$1000, while the Sproats car suffered some \$600 damage and the Reil car sustained \$1500 damage.

Investigation by Provincial Constable Bob Wood.

Ban on open fires extended in north

A ban on open fires has been extended by Natural Resources Minister Frank S. Miller to include all of Northern Ontario with the exception of Hearst, Kapuskasing and Moosonee Districts.

The Ministry's Administrative Regions of Northeastern and Algonquin will join Northwestern, North Central and Northern Regions which have had restricted fire regulations in effect for several weeks as a result of extremely high fire hazard ratings.

The Northeastern and Algonquin restrictions will go into effect at midnight and will remain until midnight June 12, the Provincial Fire Centre in Toronto said. During that time, no person may start a fire outdoors for cooking or warmth except in a portable stove or charcoal installation.

'The bush is tinder dry across Northern Ontario and since most of the nearly 1,000 fires since April 1 have been started through human carelessness, we have no alternative but to control the use of open fire', Mr. Miller said.

The ban includes open campfires in Provincial Parks, the Provincial Fire Centre said.

'The public should not confuse restrictions on open fires with freedom of movement in the bush,' said Forest Fire Control Branch Director Len Sleeman. 'While people are free to travel, they should be conscious of the importance of being careful with fire, especially in the use of smoking materials.'

Algonquin Region includes the forest districts of Algonquin Park, Bancroft, Bracebridge, Minden, Parry Sound and Pembroke.

Chapel of John Welch &
Son Ltd., Minden, until
12:00 noon Tuesday, May
31, thence to St. Paul's
Anglican Church in Minden
for Requiem Mass at 1:30
p.m. Interment at Minden
Cemetery.

Friends and acquaintances
please accept this intima-
tion. 744-1c

**JAMES HENRY ROBIN-
SON** - died suddenly at his
late residence, Lutterworth
Estates on Friday May 27,
1977 in his 74th year.
Beloved husband of Mar-
garet, dear father of June
(Mrs. L. Steadman) of Gel-
ert, Ron of Minden, Eleanor
(Mrs. Graham) of Toronto
and Ronald Edward of
Toronto. Also survived by
15 grandchildren and 10
great grandchildren. Brother
of Mary (Mrs. J. McCrea)
of Haliburton, Lloyd, Mor-
gan, Olive (Mrs. B. Church-
hill), Peggy (Mrs. R. Mc
Crea) of Essonville.

Resting at the Funeral
Chapel of John Welch &
Son after 7:00 p.m. Satur-
day. Funeral service in the
chapel on Monday May
30th at 3:00 p.m. Inter-
ment Minden Cemetery.

Market Report

STOCKERS: Operating on a very strong mark-
et, with steer calves from .36 to .42 and sales to
.46. A very special Stocker Sale, Saturday, May
Consignments are open to everyone. Many buyers
are interested in these sales and we need yearling
steers and heifers.

Veal: Sold on a steady market with good veal
selling from .35 to .45.

Bob Calves: Good calves were on good demand.
Beef cross calves selling from \$20 to \$30; Dairy
calves \$25, and Medium calves for \$10 to \$20.

Beef Cows: Good cow and calf pairs sold from
\$350 to \$400. Beef springers sold from
\$250 to \$350 depending on size.

Dairy Cattle: Springers selling from \$350 to \$450
and as high as \$500.

Butcher Cows: Good cows were selling from 26
cents to 29 cents. Commercial and medium cows
selling from 22 cents to 26 cents.

Pigs: Weaner pigs were selling on a strong market
- \$30 to \$45, with some feeder pigs selling as high
as \$50. Sows selling from \$150 to \$200; hogs from
\$75 to \$100.

**MAY 19, FARM MACHINERY AND INDUSTRI-
AL IMPLEMENT SALE** -Smaller items to be
sold at 11:00 a.m. with larger machinery selling
at 1:00 p.m. This sale is open to consignments
from anyone. A very good place to sell your
used farm machinery.

MAY 21, STOCKER SALE: All consignments wel-
come. Keen interest from buyers. Let us know
how many you have to sell.

MAY 28, SIMMENTAL SALE. A special disper-
sal sale to be held at 1:00 p.m., Saturday for
Eastern Exotic Breeders.

**June 2, ALL BRED REGISTERED AND RE-
CORDED BEEF SALE:** to be held on Thursday
evening at 7:30 p.m. Consignments welcome up
until time of sale. Unpapered good beef cattle
will be accepted and sold later in the evening.

**"It's 2 A.M. and I feel rotten.
Who has time
to read medicine labels?"**

Sorry, there is no excuse for not reading the medi-
cine label. The label tells you what it's for, how much to
take and how often to take it. It's important information.
Before you take any medicine, read the label. **Medicines
can't help you if you don't take them right.**

COUNCIL ON FAMILY HEALTH.

MAIN-STREETIN'...

This past week it seemed as though every election candidate in Victoria-Haliburton was 'mainstreeting' as all three tried to cover as many communities as possible in their bids for votes.

Caught last Friday by Progress reporter-photographer Dwight Thomas was a busy John Eakins as he chatted with Minden residents along the village main street and in its stores.

Long-time Mindenite Sam Labarge was in his usual good form (top) as was Les Winch (right-centre). Shown (left-centre) is Mrs. Max McKelvey as Mr. Eakins responds to a question while, (bottom) Mr. Eakins chats with Minden Drug Store pharmacist Paul Heffer.
